

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

TO THE LEGISLATURE OF THE STATE OF NEW-YORK.

The Trustees of the State Library respectfully

## REPORT:

That the progress of the State Library during the past year will be seen by the catalogues accompanying this report. Additions have been made to the Law and the Miscellaneous collections, to the full extent of the means placed in the hands of the Trustees, and in many instances under the most favorable circumstances. A large number of books of value and comparative rarity have been purchased at auction sales, both in this country and abroad.

The donations to the library during the year 1851 have, however, equalled, if not exceeded in value, the annual amount granted by the State. A brief notice of these is due to the liberality of the givers.

From his Majesty, the King of the Two Sicilies, has been received a copy of the long known and valued *Flora Napolitana*, being a description, with plates accompanying, of the plants native to the kingdom of Naples, in six volumes folio.

From his Majesty, the King of the Netherlands, and his government, at the request of the Royal Institute of the Netherlands, the Trustees have received a copy of the magnificent work of Prof. Blume, in four volumes folio, being a description of the plants found in the East Indies, with numerous engravings. The Royal Institute has also forwarded nearly a complete series of its Transactions and miscellaneous publications.

It is with great pleasure that the Trustees announce a beautiful present from the Republic of Chili, being the Natural, Civil and Political history of that country, in fourteen volumes, with a folio atlas of plates.

Mr. Vattemare continues his indefatigable labors in promoting the cause of international exchanges. Several consignments have been received from him during the year. Among the most remarkable works thus obtained may be enumerated the Topographical map of France, which has been in the course of publication since 1833, and is not yet completed. One hundred and seventy folio sheets have been received as a donation from the Minister of War of France. The city of Paris has presented a copy of the "Historic Galleries of Versailles," in fifteen volumes folio. This great work contains many hundred engravings, illustrative of the historical men and events of France, from the earliest times. The Ministers of the Interior, of public instruction, of justice, of the navy, of public works, and of agriculture and commerce, are each also among the donors during the last year. Several valuable works have been received from the National Library of France; amongst others eight volumes of that curious and valuable collection, illustrative of the early history of our own State, the *Jesuit Relations*. The library now contains twenty volumes of this series. Donations have also been received from the cities of Bordeaux and Nantes, the Geological society of France, and various other institutions and individuals. M. Vattemare has also established an interchange between the State and the Minister of the Swiss government, at Paris. Several works on the statistics of Switzerland are among the early results of this arrangement.

The last consignment (and the largest) from M. Vattemare, was received so late, (December 25) that it has been found impossible to insert the titles of works thus presented in the catalogue of the last year. They are however all entered on the list of donations.

The government of Canada continues to interchange its official publications, and among foreign institutions from whom donations have been received, are to be enumerated—the Trustees of the

British Museum, the Royal Society of Antiquaries at Copenhagen, the University of Edinburgh and the Faculty of Advocates of that city.

The donations received from the government of the United States; from twenty three states and territories, from the National observatory, and Smithsonian Institution at Washington, and from various scientific and literary institutions throughout the Union will be found recorded in the accompanying list. Among these last, the fine and useful present received from the common council of the city of New-York, consisting of 83 volumes of its proceedings and documents, must be particularly specified.

While the thanks of the Trustees are cheerfully returned for the gifts received from various individuals, that received from the Messrs. Rich of London, deserves at least a more particular notice.

Their respected parent (the late O. Rich) had for many years been engaged in collecting maps and charts relating particularly to this country. A short time previous to his lamented death, he sent these to the New-York State Library and his sons have confirmed and renewed the present. It is barely necessary to say after referring to the catalogue, that this is probably the most valuable addition to American history, ever received as a donation by the library. It consists of a number of folio volumes of atlases; of numerous maps (several of which have been placed on rollers) of various states in the Union and particularly of New-York city and state; a very large number of maps and charts, many in manuscript and which have been collected and bound together in volumes; and some twenty or more plans of the battles, sieges and other military operations during the American revolution, and which probably make the collection on this subject as complete as any in existence.

Some curious maps (generally in manuscript) illustrative of the French war, in this country, are also among these valued gifts.

As age and other causes have done their work of injury, more or less, on these, the Trustees have caused them to be carefully

aired and secured as far as possible, from  
and also to be bound in a style worthy of

cates remains on hand, which will be sold  
best advantage.

ant of manuscripts, the additions made have  
The trustees have however received from  
laer Westerlo, deceased, a large number of  
the sermons and writings of the late eminent learned Rev. Eilar-  
dus Westerlo, in the Latin and Dutch languages. These are now  
preparing for binding.

The "Sir William Johnson papers," have been bound and  
will be duly catalogued. For reasons mentioned hereafter, they  
are for the present retained at the State Hall.

During, a recent visit to Europe, by one of the trustees of the  
library, an interchange of books was established with the ancient  
library of St. Marks at Venice, and some six hundred volumes are  
now on their way here, and it is hoped may safely arrive. At other  
capital cities and with several governments, the assurances of  
continued interchange have been renewed and reciprocated.

The appropriation for the increase of the library, and for the  
other expenses incident to this, has been so managed, as to ex-  
ceed the same, by a very small amount. There is however, one  
item, which the Trustees can scarcely control, and which is, the  
charges for binding. The excess over the usual annual appro-  
priation has for years arisen from the large number of dona-  
tions received, and which from a due regard to the donors, as  
well as to the intrinsic value of the presents, were required to  
be bound in a conformable manner. The expenses in this de-  
partment have thus been constantly increasing.

The rooms in which the library is at present placed, are filled  
to their utmost capacity and the Trustees, as well from an appre-  
hension of a calamity, which in another place, has recently  
caused so much regret to all friends of the diffusion of know-

ledge, as from almost absolute necessity, will be obliged to retain most of the purchases of the current year, in storage at the State Hall, until the new building be completed.

It may be proper to add, that the Trustee letter to the joint library committee of Congress is subjoined,) tendering such State publications to the National Library, and which the their power to forward. They trust that this only meet with the approbation, but the aid and aid of the Legislature.

The following papers accompany this report: —

- A. A catalogue of all the books, maps, engravings, medals and manuscripts added to the library from January 1, 1851, to January 1, 1852.
- B. Catalogue of books missing during 1851.
- C. List of donations received during the same time.
- D. Account current of the Secretary of the Regents, *ex officio* Treasurer of the Library Fund.

ALBANY, January 5, 1852.

To the Joint Committee of Congress:

Gentlemen—On behalf of the Regents of the University, *ex officio* Trustees of the State Library of the State of New-York, we are directed to say, that in case any of the volumes of Statute Law, Legislative Journals, or other publications of this State heretofore presented to the Library of Congress, have been destroyed by the late fire in the capitol, they will take great pleasure in furnishing additional copies of all they are enabled to supply.

A communication from the Librarian specifying the books needed, will receive the earliest attention.

We are, with great respect, yours, &c.,

(Signed)

J. V. L. PRUYN,  
*Chairman of Library Committee.*

T. ROMEYN BECK, *Secretary.*

Fletcher, Captain General and Governor-in-Chief of New-York, &c. to the Inhabitants of the Province of New-York, to erect a Beacon.** Given at Fort William Henry, the 25th day of August, 1693. Printed and sold by William Bradford, Printer to their Majesties, King William and Queen Mary, at the city of New-York, 1693. [This is the earliest known specimen of Printing in the province of New-York. On the 23d of March, 1693, the Council passed a resolution encouraging a printer to settle in New-York "for the printing of our Acts of Assembly and public papers." (Coun. Min. VI. 182.) On the 24th of April following, Gov. Fletcher set out from New-York for Philadelphia, whence he returned on the 5th June, 1693. (Coun. Min. VI. 194, 202.) Thomas, in his History of Printing, Vol. II., gives a relation of the persecutions which drove Bradford from Pennsylvania to New-York in 1693. It is presumed from the above data that he was induced by Gov. Fletcher to remove here, and that he accompanied His Excellency on the latter's return to New-York, in June, 1693.] (Framed.)

**AMERICAN MILITARY PLANS:** (In one vol. Folio.)

[In consequence of a very valuable donation from the late Mr. Rich, of London, and his sons, this volume noticed at Page 934 of the Catalogue of 1850, has been broken up, large additions

have been made to it, and it has been rebound. In the arrangement of the plans, the chronological order has been followed as far as possible, but it will be noticed that several plans, particularly the MS. ones, are without date. Those presented by Mr. Rich are designated thus \*. The remainder are mostly from the Warden Collection.]

## THE EARLIEST SPECIMEN OF PRINTING IN THE PROVINCE OF NEW-YORK ?

Under the division of STATE PAPERS, NEW-YORK, (page 54,) will be found the following entry:

Proclamation of His Excellency, Benj. Fletcher, Capt. Gen'l and Governor of New-York, requiring the inhabitants to erect a beacon, &c. Dated at Fort William Henry, the 25th day of August, 1693.

Printed by William Bradford, Printer to their Majesties, King William and Queen Mary, at the City of New-York, 1693.

The following communication from Dr. O'Callaghan on the above, possesses considerable interest:

"On the 23d of March, 1692-3, the Council of the Province of New-York, passed a resolution encouraging a printer to settle in New-York, 'for the printing of our Acts of Assembly and public papers.' He was to receive forty pounds a year and have the benefit of His printing, besides what serves the public. (Council Minutes, VI., 182.)

On the 24th of April following, Governor Fletcher set out from New-York for Philadelphia, whence he returned on the 5th of June, 1693. (Council Minutes, VI., 194, 202.)

Thomas, in his History of Printing, Vol. II., gives a relation of the persecutions which drove Bradford from Pennsylvania to New-York in 1693. It is presumed, from the above data, that he was induced by Gov. Fletcher to remove here, and that he accompanied his Excellency on the latter's return to New-York, in June, 1693.

The proclamation, as above, bears date the 26th of August, 1693, and is hence supposed to be the earliest specimen extant of Bradford's Printing, after he settled in New-York.

1851,.....	457,624	16,487,652	867,881

A reduction in the rates of tolls was made on flour and wheat, commencing on the opening of navigation in 1851, equal to 25 per cent. With an arrival at tide water nearly equal to that of the previous year, the tolls decreased \$246,638, or about 22 per cent. While the quantities are about equal for the two years, the value is seen to have fallen off more than \$6,000,000. With an equal price for the two years, there can be little doubt that the increase in quantity would have kept the tolls up to those of the previous year.

The tons of wheat and flour shipped at Buffalo and Oswego, from the year 1835 to 1851, and at Black Rock, from 1839 to 1851, inclusive, and the total tons of wheat and flour which arrived at the Hudson river, were as follows, viz:

While there is no difficulty in getting at the “births” of canal boats, it is a very difficult matter, if not an impossibility, to keep such an account of the “deaths” as shall approximate to accuracy. It has never been known with any approach to certainty, except at two periods, how many boats were in existence. In 1843, and again in 1846, after the navigable communications were closed by, and the boats were fixed in, ice, the canals were divided into sections, and an accurate account was made, under the direction of the collectors of tolls. The actual number of boats at each of those periods, was

January 1, 1844, .....	2,126 boats,
do 1847, .....	2,725 do
Increase, .....	<u>599</u> do

Starting with the 1st of January, 1847, boats have been built and registered as follows:

In existence January 1, 1847, .....	2,725
Built and registered in 1847, .....	1,466
do do 1848, .....	457
do do 1849, .....	215
do do 1850, .....	152
do do 1851, .....	213
	<hr/> 2,503

Total (without allowing for "deaths"), Jan. 1, 1852, 5,228

The unexampled business of 1847, explains the great increase of boats built in that year.

On the assumption (in the absence of any count), that the "deaths" since January 1, 1847, bear the same proportion to the number then in existence, as the deaths between the counts in 1844 and 1847 (Senate document 90 of 1847, page 16), bore to the whole number in existence, January 1, 1844, then the result would be as follows:

Boats, January 1, 1847, .....	2,725
"Deaths" since 1847, ... ..	1,181
	<hr/> 1,544
Add boats built since January 1, 1847, .....	2,503
	<hr/> 4,047
	<hr/>

This shows an actual absolute addition of 1,322 to the number on the 1st of January, 1847, or 264 per annum—equal to 48 per cent for the last five years. The accuracy of the above result is corroborated by the fact that the average life of a canal boat is but about nine or ten years.

In the report for the last year corresponding to this, and owing to the omission to make an allowance for the deaths of boats, the number on the 1st of January, 1851, was stated to be 5,568. A continuance of the same erroneous statement would have swelled

the number on the 1st of January, 1852, to 5,781, and would have shown an excess of 1,734 boats, or 30 per cent beyond the number in existence at that date, an error nearly equal to the whole number of boats in 1844. The error in the statement of last year, is the less excusable, because the table (Assembly document 56 of 1851, page 13) is made up by the addition to the count in 1844, of the boats built in each year thereafter, whereas there was a count in 1847, when it was ascertained that there were 553 deaths between the two periods. That while the table of last year was erroneous in not estimating and allowing for the *unascertained* deaths since 1847, it was doubly erroneous by omitting the *ascertained* deaths of 553, between 1844 and 1847.

An interesting exhibit of the average tonnage of the boats, of the time necessary to make a passage, and the cost to bring a barrel of flour from Buffalo to Albany, of the lockages at Alexander's lock, and the total tons delivered at tide water from the Erie canal, is as follows:

YEAR.	Average tonnage of boat.	Days time between Buffalo and Albany.	Freight on a barrel of flour.	Lockages at Alexander's lock.	Tons delivered at tide water from Erie canal.
1841, .....	41	9	71 cts.	30,320	532,520
1844, .....	49	7 $\frac{1}{2}$	60 do	28,219	799,816
1847, .....	67	10 $\frac{1}{2}$	77 do	43,957	1,431,252
1848, .....	71	9	58 do	34,911	1,184,337
1849, .....	68	8 $\frac{3}{4}$	56 do	36,918	1,266,724
1850, .....	76	9	58 do	38,444	1,554,675
1851, .....	78	8 $\frac{1}{2}$	49 do	40,396	1,508,677

A comparison of the results of last year's business, with that of 1841, ten years ago, shows that while the boat has nearly doubled its capacity, the time necessary to make a passage from Buffalo to Albany, is diminished half a day; transportation is cheapened 30 per cent, or 22 cents on a barrel of flour; and that while the lockages at Alexander's lock have increased only 33 per cent, the tons arriving have increased 200 per cent. And that though the tons arriving from the Erie canal last year are 77,000 more than in 1847, the lockages are 3,600 less.

It is proper to state that the average tonnage of the boat and the time necessary to make a passage from Buffalo to Albany, as put down in the foregoing statement, was ascertained in this way. The collector at Albany kept an account, showing the boat each day of the largest tonnage, which made the passage in the shortest time, as shown by the dates on the clearance of the boat. The result for the year, of the average of the statements, is put down opposite each. The time may be less than the actual performances of lines of boats, but being made on the same principle for each year, it furnishes a just comparison of one year with another.

The average tonnage of all the boats registered in the last ten years, is about seventy tons, which probably approaches the average tonnage of the boats now in existence. Assuming the number of boats to be . . . . . 4,047  
the average tonnage . . . . . 70

, and it gives as the total tonnage of all existing boats, .. 283,290

By the data used in arriving at the above, it is found that of the 4,047 boats existing, there are—

		Average tonnage.	Total tonnage.
Scows, . . . . .	1,075	70	75,250
Decked scows, . . . . .	1,279	70	89,776
Lake boats, . . . . .	685	70	47,950
Bull heads, . . . . .	382	77	29,414
Line boats, . . . . .	564	69	38,916
Packets, . . . . .	62	32	1,984
Total, . . . . .	4,047		283,290

The total number of boats as ascertained by count in 1844, 1847 and 1848, and in 1852 by estimate, with their tonnage capacity, and the tonnage delivered at tide water from the Erie canal, is as follows:

Year.	Number.	Tonnage capacity.	Tons from Erie canal delivered at tide water.	Lockages at Alexander's lock.
1844, . . . . .	2,126	117,453	799,816	28,219
1847, . . . . .	3,991	266,260	1,431,252	43,957
1851, . . . . .	4,047	283,290	1,508,677	40,396

It is seen that the total number of boats and their aggregate tonnage capacity, the tons delivered at tide water and the lock-ages at Alexander's lock are about the same in 1847 as in 1851. In 1847 a portion of the locks between Albany and Syracuse were single, now they are all double.

The number and tonnage capacity of the boats built and registered in each year since 1843, has been as follows :

Year.	Boats.	Tons.
1844,.....	378	24,360
1845,.....	297	19,781
1846,.....	477	34,630
1847,.....	1,466	110,745
1848,.....	457	33,815
1849,.....	215	16,370
1850,.....	152	12,260
1851,.....	213	18,450

The progressive increase of the capacities of boats is, perhaps, more satisfactorily shown by the various tonnage of the boats registered in each of the last eight years.

As the representative of *down* freight, or freight from the west, in reference to the cost of transportation, it has been usual to take a barrel of flour of 216 lbs., and as the representative of up freight, or freight going west, 100 lbs. of merchandize. To show what have been the variations in the price of transportation of up and down freight between Buffalo and Albany; the following tables have been constructed, giving the average price in each month of each year, from 1830 to 1851 both, years inclusive. The tables have been prepared with a great deal of care from the books and shipping bills of the principal forwarding merchants at tide water. The tables give also the average for each season, between the toll which goes to the State, and the

freight or amount over toll, which goes to the carrier. They are as follows:

In 1841 (Assembly Doc. 92, p. 8,) the Canal Commissioners estimated that an addition of 225,000 tons to the down tonnage of 1840, would exhaust the capacity of the Erie canal. Not merely 225,000, but 1,041,362 tons has been added to the down tonnage of the Erie canal, and the average freights are 30 per cent less with an arrival of 1,508,677 tons at tide water in 1851, than with an arrival of 467,315 tons in 1840.

All which is respectfully submitted,

G. W. NEWELL, *Auditor.*

( No. 46. )

A perfect test of the *miles* run upon all the canals, by all boats, is furnished by the toll upon the boat.

A statement of the toll upon boats has been kept at each collector's office during the last fifteen years. The tolls paid in each year at two cents per mile, upon *freight boats* on each canal, are as follows:

As the toll upon freight boats has been uniformly two cents per mile, upon each mile of the passage of each boat, for the last fifteen years; the miles run in each year are shown by adding two cyphers to the total tolls of each year, as given in dollars, and dividing it by two,—the rate of toll per mile. The results are as follows:

In 1837, number of miles run,.....	5,566,590

## **REPORT**

**Of the Inspector in charge of the Sing-Sing Prison, submitting an investigation relative to an assault and battery on Henry Hagan.**

## **MEMORIAL**

Of the Inspector in charge of the Sing-Sing Prison, submitting an investigation held by Gen'l Storms, Inspector in charge Sing-Sing Prison, March 26th, 1852, relative to the assault and battery committed on keeper Ashton by Henry Hagan, late a convict in this prison.

Mr. James H. Ashton, being duly sworn, deposes as follows :

That he is, and has been a deputy keeper since 4th Feb'y, 1851 ; Mr. Wells was Inspector at that time ; Mr. Porter was warden up to 1st April ; Mr. Robinson succeeded him ; deponent is now stationed in the brass shop ; the convict, Hagan was under him ; the occurrence took place on the 17th March, 1852 ; never had any difficulty with him but once before, and that was on deponent's attempting to shower him, when he said to deponent " unless you are a better man than I am you shall not do it ;" Mr. Robinson gave the order to shower him ; Mr. Powell, the agent, complained to deponent that Hagan refused to work ; deponent interrogated Hagan about it, and requested him to count his work ; Hagan replied that he knew nothing about it ; deponent again requested Hagan to count his work, when he refused and requested deponent to do it himself ; deponent cautioned him regarding punishment for

misconduct towards an officer, upon which said Hagan replied that he did not care a damn for all the officers or punishments in the prison, and arising from his seat placed himself in an attitude of offense ; deponent requested him to be seated, upon which said Hagan preremptorily refused ; deponent again asked him to sit down, when Hagan told deponent to "stand back," and repeated the caution ; deponent went to his desk to get his cane to defend himself, fearing an attack from Hagan ; deponent got his cane, and turning saw Hagan approaching him with an iron wrench in his hand ; thinks the wrench would weigh from 5 to 7 lbs. ; deponent fearing Hagan would strike him with the wrench struck at him, upon which Hagan rendered the blow ineffective by striking deponent on the wrist with the wrench. (Mark shown.) Deponent then grasped the wrench with his left hand and pushed Hagan backward ; he fell over a small rack ; deponent was leaning over him trying to get the wrench from him, upon which Hagan gave deponent a blow with the wrench on the head ; Hagan then arose and threw deponent on some boxes ; the blow having rendered deponent powerless, deponent rolled from off the boxes on the floor, upon which Hagan gave deponent a second blow on the head ; a convict pulled Hagan away. The convicts who assisted deponent were Thomas Newall and James McMahon. Hagan then went to the forge and seizing a red-hot bar weighing about 15 lbs., and was about to strike deponent with it, when he was prevented by Newall ; Hagan then seized a poker and made a rush at deponent with it, and was again prevented by another convict ; Hagan then returned to his seat carrying the iron bar with him ; the waiter then brought in Messrs. Andrews, Foster and Christie, who conveyed deponent to the hospital ; Mr. Andrews took charge of Hagan ; Mr. Andrews is the architect of the prison ; Hagan was then put into a dark cell where he remained until about three o'clock ; deponent reported Hagan to Mr. Lockwood, then acting warden ; Mr. Robinson being absent. (See report on warden's book.) Hagan was then punished in conformity with prison regulations. (See warden's book.) Deponent then proceeded to enter a complaint before J. Urmey, justice of the peace. Hagan's term of sentence having expired on Saturday, the 20th March, he was then arrested by officer Wheeler, and brought before Justice Urmey ; was tried and acquitted ; Mr. Hyatt appearing for deponent, and Mr. Wells being assigned by the court counsel for the prisoner, defendant. Deponent saw two convicts there as witnesses.

JAMES H. ASHTON.

HENRY STORMS, *Inspector in charge.*

Barton W. Powell being duly sworn, deposes and says, that he is an agent for the contractor, is acquainted with Mr. Ashton, keeper, and Mr. Robinson, warden; considers Mr. Ashton a judicious and attentive keeper. Does not think Mr. Ashton would have said anything to Hagan, had not deponent spoken to him about it. The occurrence happened while deponent was at dinner. Hagan was unwilling to work, and required the keeper to be in constant attendance on him; is moreover a badly dispositioned man; he (Hagan) informed deponent that he intended meeting Ashton upon his (Hagan's) discharge from the prison. Deponent thinks Hagan has been in this prison before on a prior conviction. Has known Hagan to be kept in irons for a month at a time. Deponent considers him a dangerous man to be at large. After his discharge, Hagan informed deponent that they could not converse together five minutes without a fight. Deponent has been connected with the Sing Sing Prison for upwards of ten years, and considers Mr. Ashton as good a keeper as ever was in charge in this prison.

Deponent informed Hagan that he did not do as much work as he ought—that he should do so much work daily; Hagan replied to deponent that he would not do it. Mr. Mahon told deponent in regard to it, that keeper Ashton and Hagan had a row, and had it not been for himself, Ashton would have been killed. Newall informed deponent that he took the wrench and poker from Hagan, thinking Hagan would kill Ashton if he did not disarm him.

BARTON W. POWELL.

HENRY STORMS, *Inspector in charge.*

Mr. Ashton recalled: Deponent went to court about 10 o'clock, A. M., accompanied by Mr. Robinson, warden. Court was in session until 1 o'clock, when it adjourned till 3 o'clock, P. M. At the opening of the court, two convicts, John McMahon and Thomas Newall were brought there in a carriage, in custody of Messrs. Robinson and Bouton.

JAMES H. ASHTON.

HENRY STORMS, *Inspector in charge.*

Robert A. Bouton being duly sworn, deposes and says: that he is a keeper in the Sing Sing Prison. Knows nothing of the occurrence of the 17th inst. Deponent went to the court held on the 20th inst., at the request of Mr. Robinson, warden, in charge of the two convicts; deponent was there about three hours; considers Mr. Ashton one of the best keepers in the prison. Heard conversation

between the convicts and Mr. Robinson; the testimony given by the convicts under oath before the court, was entirely different from the conversation held with Mr. Robinson.

ROBERT A. BOUTON.

HENRY STORMS, *Inspector in charge.*

*State of New-York, Westchester County, ss :*

Munson J. Lockwood, of the village of Sing Sing in said county, being duly sworn, deposes and says, that on the 17th of March last, he was by law the acting warden of the Sing Sing Prison, in consequence of the absence of the warden Mr. Robinson ; that on the afternoon of the said 17th day of March, at half past three o'clock, James H. Ashton, a keeper in the brass shop, reported to me one Henry Hagan, a convict in said prison, for disorderly and violent conduct in the following words to wit :

MARCH 17th, 1852.

*To the Warden :*

I report to you Henry Hagan, for violently assaulting me and beating me with an Iron wrench, cutting my head severely and wounding me in other parts of my body.

Respectfully Yours,

JAMES H. ASHTON, *Keeper.*

On receiving the above order I investigated the matter thoroughly, and was fully convinced that Hagan was a desperate man and had a number of times before threatened the life of his keeper ; I also made a personal examination of the keeper and convict, the convict had not the slightest wound or scratch about his person, while the keeper was severely wounded in two or three places about the head, his face and shirt bosom a gore of blood ; whereupon, I ordered the following punishment and in the following words, to wit : " Ordered showered, hair cut off and yoked."

M. J. LOCKWOOD, *Acting Warden.*

I then in company with Mr. Andrews an officer of the prison, took Hagan to the shower bath and had the order put in execution, he was not in the bath over three minutes, and not over three pails of water fell upon him. The showering was nothing more than an ordinary punishment for the violation of any of the rules of the prison. The yoke was then put on him and he was taken back to the shop where the assault was committed, merely to make an example of him to the rest of the convicts, the yoke was not on him

over 40 minutes, and he did not mind the punishment at all, he was then put in the dark cell and kept there two days until the expiration of his sentence, and had as much bread and water as he wanted, he was not struck, bruised or beaten by any officer of the prison, and the day he left here, there was not a bruise or scratch on his person.

William R. Andrews, an officer of said prison being duly sworn deposes and says : that on the 17th day of March, 1852, about half past one o'clock, P. M., (this deponent being in charge of said prison, the agent and warden absent,) a waiter of one of the keepers came running to the prison office, and in a very excited manner informed deponent that the convicts were killing Mr. Ashton, a keeper ; deponent immediately started for the shop, of which Ashton had charge, calling C. W. Christie and F. G. Foster, two keepers, to accompany him ; upon entering the shop deponent saw Ashton, with his head and face covered with blood, which was flowing freely from wounds in his head ; deponent asked Ashton what the matter was, Ashton replied that he had ordered Hagan, a convict, to count out his work ; that Hagan refused ; that he then told him he should require it of him, when the convict Hagan, jumped from his seat and clenching his fists and grating his teeth, said he would not count his work, and that he did not care a damn for the officers of the prison, nor the punishment ; that he, Ashton, thinking that Hagan might attack him walked towards his seat for his cane ; that in the act of getting his cane, he turned his head and saw the convict Hagan coming towards him with an iron wrench ; that he, Ashton, drew up his cane and struck at him with it ; the convict at the same time striking with the wrench hitting him (Ashton,) on the wrist, thereby cutting it and warding off the blow of Ashton's cane ; that they then clinched ; Ashton throwing Hagan upon a pile of hame irons ; when Hagan having the wrench in his hand struck Ashton upon the head twice, inflicting three wounds, two with the prong of the wrench at one blow ; the wounds were about an inch and a half in length and penetrating to the skull ; the wrench was of iron weighing about 7 pounds and a foot and a half in length ; two other convicts then took Hagan off from Ashton, when Hagan ran to the forge and endeavored to get a red-hot iron from it ; the convicts prevented this ;

when he (Hagan,) seized a poker about four feet in length and endeavored to thrust this into Ashton, (Ashton being completely stunned by the blows received, and blinded by the blood,) from this he was prevented by the convicts, and another keeper who at that instant came up.

After hearing this in presence of Hagan, I asked him what he meant by such a course of conduct; he replied that he wouldn't be insulted by any man inside or outside of the prison without resenting it: I then requested him to accompany me; he did so and I locked him in a cell to await the arrival of the agent or warden. The former arrived at the prison about  $\frac{1}{2}$  past three, P. M., and, after hearing the statement he ordered upon the report book that "Hagan be showered, have his hair cut and yoked." I proceeded to the cell where Hagan was confined, and took him to the shower bath where the agent of the prison then was: he (Hagan) was then put in the shower bath, and about three (of what are called barrels of water) showered upon him; about one and a half with a cessation of a few moments, before the balance of the water was let upon him—these barrels, as they are called, hold about ten or twelve gallons of water: his hair was cut, (not shaved) leaving some of the hair on parts of his head longer than upon others—a yoke was then put upon him (the yoke weighing twenty-six and a half pounds) which yoke was ordered to be kept upon him thirty minutes; with orders to the keeper that if he begged to have it removed, to take it off. He paid no attention to the yoke and it being near lock-up time, half-past five o'clock, the yoke was taken off and he was put into a dark cell: his further punishment or how long he was kept in the dark cell deponent knoweth not. Deponent further says that Hagan had no marks, cuts, or bruises upon him, nor did he appear to care anything about the punishment after it was inflicted; he was a most desperate man, and told deponent that he could not govern his temper; that he had no regard for life when he was angry, for his temper rendered him almost insane. All of which above statement is true, according to the best of my knowledge and belief.

*Fenelon Hasbrouck, M. D.*, Physician of said prison deposes and says, that on the 17th day of March, between the hours of one and two o'clock, P. M., while engaged in the Hospital, deponent was called upon to dress the wounds of Jas. H. Ashton, a keeper in said prison, which wounds deponent was informed were inflicted by a convict named Henry Hagan.

These wounds were two in number, one above the left temple about two inches in length—in form like the letter V; the other about 2½ inches long, and situated over the left ear; in both cases penetrating to the surface of the bone—the skin of the scalp removed and the loss of blood was very great.

Deponent further says that the convict, Hagan, had, at various times, manifested a desperate and revengeful spirit towards deponent, and was considered a violent convict.

Deponent, after the assault, saw the convict Hagan, and could perceive no marks of violence upon him; saw him also on the morning of his discharge, while he was stripped, preparatory to dressing in his discharge clothes: there was, then, no marks of violence upon him; said Hagan had an eruption of a scrofulous character upon his skin, and for which he had been treated, but was kept in continuance by his uncleanly habits, and daily neglect of daily ablutions, his hair had been cut short, but *not* shaven; he exhibited no marks of violence about him.

**IN SENATE, APRIL 7, 1852.**

## **REPORT**

**Of the Commissioners of the Land Office, relative to the establishment of a hospital at Sandy Hook.**

The Commissioners of the Land Office, in compliance with the resolution of the Senate :

“Resolved, That the Commissioners of the Land Office be requested to report to the Senate what action has been taken by that board in pursuance of an act to provide for the establishment of hospitals at Sandy Hook, passed April 10, 1849, and also what, if any, legislation is deemed requisite to carry speedily into full effect the objects contemplated, and the removal of the Quarantine from Staten Island.

**RESPECTFULLY REPORT :**

That by act ch. 309, of the Laws of 1849, the Commissioners of the Land Office are to negotiate with the United States for a cession of so much land at Sandy Hook as may be selected by said Commissioners for the erection of Hospitals, and the Commissioners of the Land Office, with the health officer of the port, were directed personally to examine and determine whether the promontory known as Sandy Hook, in the State of New Jersey, would be a proper and convenient site for the establishment of a marine hospital, and should they deem Sandy Hook a proper and convenient site for such hospi-

tal, it shall be the duty of the Commissioners of the Land Office to negotiate with the United States for the land, and if necessary with the State of New Jersey for the enforcement of quarantine law.

That in pursuance of the authority vested in the Commissioners of the Land Office some advances have been made towards ultimate success.

The General Government has conveyed to New-York all her title to the ground (about 1,300 acres,) wanted for a hospital, with such jurisdiction as has from time to time been granted to it by New Jersey, and the conveyances have been duly executed and delivered by order of the President of the United States.

Nothing now remains to be done to complete these benevolent arrangements but the cession by New Jersey of sufficient civil jurisdiction to enable New-York to establish and maintain proper order, and to enforce the obedience necessary to the beneficial government of the institution.

New-York could without the breach of any strictly legal obligation take possession of the premises granted at any time and occupy it, but the comity which should at all times exist between two states whose relations are so intimate as those of New-York and New Jersey, forbids the idea that we can do so with any thing like the appearance of injustice.

The conflicting claims of jurisdiction interposed by the two states, and the efforts made by each to maintain its position would be fatal to the establishment, and inconsistent with the peace of the surrounding country, and should be provided against by the mutual efforts and good offices of both states.

And to that end the Honorable Gabriel P. Disosway, known for his praiseworthy efforts to secure the permanent establishment of the Quarantine at Sandy Hook, was intrusted to present the memorial from the Commissioners of the Land Office (now submitted,) with a letter from Governor Hunt to the authorities of New Jersey, to obtain a cession of the necessary jurisdiction, and to subserve the great interest set forth in the memorial, and affecting the State of New-Jersey and the State of New-York, and for the proper enforcement of Quarantine law, and not inconsistent with the jurisdiction already ceded to the United States, for the purposes of public defence.

The memorial was presented to the Legislature of New Jersey, in February last, with a favorable communication from the Governor of that State, recommending legislative action, and a committee of the Senate reported a bill favorable to the memorial, and it was expected a law would have been enacted forthwith, ceding so much of the jurisdiction of New Jersey as may be proper for the enforcement of Quarantine law.

The application to the Governor and Legislature of New Jersey has not as yet met with the success it deserves, that body having adjourned on the 26th March last, and as no action was had on the bill reported, another year will elapse before the result of the application will be definitely known. By our constitution all appropriations made by the Legislature must be drawn from the treasury, to be applied to their appropriate objects, within two years from the passage of the act making the appropriation. The appropriations heretofore made for the purchase of Sandy Hook, and for the erection of hospital buildings cannot now be applied, the two years having expired. It will become necessary therefore to renew these appropriations, unless in the opinion of the Legislature it is advisable to abandon the humane project sought to be advanced by the legislation heretofore had on that subject.

Respectfully submitted,

## MEMORIAL.

The memorial of the State of New-York through the Commissioners of the Land office, and the health officer of the Port of New-York to whom this duty has been entrusted by said State.

*To the Legislature of the State of New Jersey,*

RESPECTFULLY SHEWETH:

That from the proximity of the two States, and the very intimate business relations at all times existing between the inhabitants thereof, no evil can assail the one without seriously affecting the other ; that in particular the introduction and prevalence of infectious epidemics in the city of New-York, while they prostrate all energy in the commercial capital of the Union, are directly by communication and indirectly by the destruction of business relations equally injurious to the sister State.

Your memorialists further shew, that the present Quarantine station at Staten Island from the facility of intercourse, has become in effect a part of the first ward of the city of New-York, and is no protection whatever from disease or from the panic attending it, and that a more remote station has become absolutely necessary for the safety of the city and its commerce.

That under a provisional statute of the State of New-York the public attention has been directed to Sandy Hook as a permanent site for a Hospital, and upon due examination it is presumed to afford conveniences for the establishment of a Quarantine of great security, and that the opinion of the officers to whom the matter was entrusted by the State of New-York is expressed in the annexed resolutions.

That for the purpose, however, of giving effect to such sanitary law as the interests of the States of New-York and New Jersey re-

quire, a cession of a portion of the jurisdiction of New Jersey is necessary.

Your memorialists therefore, most respectfully pray that such cession may be made coextensive with such portion of said promontory as the government of the United States may deem it unnecessary to retain for actual fortifications and other military purposes, and may be willing to convey to subserve the great interest above set forth, equally affecting the State of New Jersey and the State of New-York.

And your memorialists will ever pray &c.,

CHRISTOPHER MORGAN, *Sec'y of State,*

W. HUNT, *Comptroller,*

L. S. CHATFIELD, *Attorney General.*

A. HUNT, *Treasurer,*

H. C. SEYMOUR, *State Engin'r and Surv'r.*

Whereas, by an act of the Legislature of the State of New-York passed 10th April 1849, the Commissioners of the Land office with the health officer of the port of New-York were directed personally, to examine and determine whether in their opinion the promontory known as Sandy Hook in the State of New Jersey would be a proper and convenient site for the establishment of a marine hospital; and whereas, the said Commissioners and health officer have examined the same, and do deem the same a proper and convenient site, and that the interest of New Jersey and of the State of New-York which are so intimately involved in the matter, will be best advanced by establishing the hospital there; and whereas, the government of the United States is willing for the common benefit of the States of New Jersey and New-York, and for the protection of the public revenue, to cede a portion of said promontory to the State of New-York for the sole purpose of establishing there a safe public marine hospital; and whereas, we are satisfied with the portion to be sold, and with the terms on which the government of the United States will convey the same:

*Resolved,* That a respectful memorial be presented to the Legislature of the State of New Jersey, shewing the mutual interest of the State of New Jersey and of the State of New-York, in the contemplated Quarantine and asking for the cession of so much of the jurisdiction of that State as may be consistent with the proper enforcement of Quarantine law, and not inconsistent with the jurisdiction already ceded to the United States for the purpose of public defence. Also,

*Resolved*, That a copy of these resolutions accompany the memorial to be presented to the State of New Jersey.

*To the President of the Senate:*

STATE OF NEW-YORK,  
SECRETARY'S OFFICE, }  
*Albany, March 17, 1852.* }

The Secretary of State has the honor to transmit to the Legislature, the subjoined tables, in compliance with the provisions of an act entitled, "An act respecting convictions in criminal courts, and to procure statistical information concerning convicts," passed April 26th, 1839. The tables are compiled from the returns of the clerks of criminal courts and the sheriffs of counties, made to this department in obedience to the requirements of the same act, during the year 1851.

It will be seen that the returns are very deficient. From eleven counties none have been received from the sheriffs; and from many others, those received, fail to embrace the whole year, or omit much of the statistical information required. And in comparing the returns of the clerks of criminal courts and sheriffs, from the same counties, it will be found that they correspond, even in regard to the number of convictions for criminal offences had, but in six counties of the State.

Errors and omissions are much more frequent on the part of the sheriffs than the clerks, but in some instances the former have reported and the latter not. This neglect on the part of these officers counteracts to a certain extent all the objects of the law, and entirely defeats some of the most important of them. Even as a record affording evidence of the previous conviction of criminals, for the use of the courts, the tables are not full, while as data for exemplifying the effect of different penal en-

actments, systems and circumstances, in the increase or diminution of crime, by comparing the criminal statistics of our own State, with those of other States and countries, or of one part of the State with those of another, they lack that completeness which could alone impart to them the value of unquestioned authenticity.

A circular containing the act of 1839, with proper instructions and forms, was prepared soon after the passage of the law, by the Secretary of State, Mr. Spencer, and forwarded to the clerks and sheriffs. It was the duty of those officers to deliver such circulars to their successors in office; but it is probable that it has been often neglected, and that many of the present officers are without such forms. My predecessor in office recommended, in 1851, that blank forms be issued from this office, for the use of sheriffs. I renew this recommendation, making it applicable both to clerks and sheriffs; and I would further suggest that it be made the duty of the Secretary of State to report the omissions of these officers to make their returns as the law provides, to the Attorney-General; and that the latter officer be directed, whenever such a delinquency is thus reported to him, to immediately prosecute for the penalty prescribed by the statute.

Of the annexed tables, that marked A, presents the number of convictions for criminal offences in courts of record, in each county of the State, (so far as returns have been received,) during the year 1851. The name and term of the court, the offence of the criminal, and the sentence, are given.

The sentences were :

To be hung, .....	17
To be imprisoned in State prison, .....	559
do in House of Refuge, .....	49
do in jail or local prison, .....	262
To be fined, .....	511
To be fined and imprisoned, .....	31
To be suspended, (or not given,) .....	53

Of those sentenced to be hung, three convicted of murder, and two of arson in the first degree, have had their punishment commuted to imprisonment in State prison for life.

There were pardoned from the different State prisons one hundred and six persons. Of these, the number convicted of

Arson in the 3d degree, was.....	1
Attempt to commit arson, .....	1
Attempt to commit burglary, .....	1
Attempt to commit forgery, .....	1
Attempt to extort money, .....	1

There were pardoned from the different work houses, two. The number of these convicted of

Assault and battery, was,.....	1
Malicious mischief, .....	1

There were pardoned from the city prison, New-York, two. The number of these convicted of

Conspiracy, was.....	1
Grand larceny,.....	1

There was pardoned from the prison on Blackwell's Island, one, who was convicted of assault and battery.

Table B is an abstract of table A, presenting collectively the convictions for the different offences, in each county of the State.

Table C presents the aggregate number of convictions for the different offences, throughout the whole State, males and females being separately classified. It will be seen from this that the whole number of convictions was 1,482, of males 1,413, of females 69. These were:

	Males.	Females.	Total.
For offences against the person, . . . .	400	9	409
do do property with violence, . . . . .	146	2	148
For offences against property without violence, . . . . .	434	41	475
For offences against the currency, ..	41	3	44
Not included in the foregoing, . . . . .	392	14	406

The ratio of the conviction of females to those of males is as 1 to 20.477. In the year 1850, the ratio was as 1 to 17.476. In 1849, it was 1 to 15.287.

Table D exhibits, classified, the number of convictions and for what offences, in our courts of record, in each year from 1830 to and including 1851.

The number of convictions in 1851 was 1,482, less by 70 than than the number in 1850, and less by 49 than in 1849. But for reasons already specified, these comparative statistics are not as reliable as they should be.

Table E is an abstract of the returns from sheriffs, exhibiting the sex, age, color, married or unmarried state, nativity, education, orphanage or the contrary, and habits in regard to temperance, of those convicted in courts of record during the year, in the several counties of the State which have reported. The counties are arranged alphabetically.

Table F presents the same information, in the aggregates, for the whole State.

The whole number of convicts reported is, . . . . .	1,196
Males, . . . . .	1,082
Females, . . . . .	72

The number of convictions reported by sheriffs is 286 less than the number reported by the clerks. No reports were received from the sheriffs of the counties of Allegany, Essex, Franklin, Hamilton, Oneida, Richmond, Rockland, Suffolk, Tioga, Wayne and Yates. No reports were received from the clerks of the counties of Hamilton, Oneida and Richmond. The reports of the clerks and sheriffs, as already stated, correspond in but six counties of the State.

Table G exhibits the occupations of the convicts above enumerated.

Table H is an abstract of the returns of the clerks of criminal courts, showing the number of indictments tried at the several terms of each court in each county, the number of convictions had thereon, the acquittals, the instances where the jury disagreed, the number of persons convicted on confession, and the number discharged without trial.

Table I is an abstract of the preceding one, showing the aggregate number of indictments, convictions, acquittals, &c., in each county. From this table it appears that the whole number of indictments tried in the State, was..... 1,106

Number on which convictions were had,.....	709
on which defendants were acquitted,.....	365
on which jury did not agree, ....	24
on which persons were convicted on confession, ..	782
on which persons were discharged without trial,	532

Table K is an abstract of the returns of the clerks of counties, made in pursuance of § 7 of the act of 1839, requiring such clerks to transmit to the Secretary of State, copies of all certificates filed with them of convictions made by courts of special sessions, the month in which the conviction was had, the sex, offence and sentence of each convict is given.

Table L is a summary of the preceding, and gives the aggregate of the same returns in each county.

Number of convictions in courts of special session, ..	3,592
Males,.....	3,076
Females,.....	516
Convictions for assault and battery,.....	1,655
petit larceny,.....	1,856
for trespass, .....	19
for riot, &c.,.....	62

The following is the number of convictions in the same courts, for the eleven preceding years.

Year.	Whole No.	Males.	Females.
In 1840, . . . . .	2,680	2,229	381
1841, . . . . .	3,054	2,637	427
1842, . . . . .	2,741	3,355	386
1843, . . . . .	3,174	2,806	365
1844, . . . . .	3,380	2,915	465
1845, . . . . .	3,374	2,856	518
1846, . . . . .	3,184	2,748	436
1847, . . . . .	3,179	2,639	540
1848, . . . . .	3,387	2,894	493
1849, . . . . .	3,874	3,353	521
1850, . . . . .	4,124	3,699	425

Table M is an abstract of the returns of the sheriffs in the counties in which the cities of Albany, Brooklyn, Buffalo, New-York and Troy are situated, made in pursuance of § 5 of the act of 1839, requiring those officers to make returns concerning persons convicted in courts of special sessions in such cities, similar to the returns required concerning persons convicted in courts of record.

The sheriffs of the counties in which the cities of Hudson, Rochester, Schenectady and Utica are situated, have wholly failed to comply with the law.

Auburn, Oswego, Syracuse and Williamsburgh have been incorporated as cities since the passage of the above named act, and its provisions are not applicable to them. I respectfully recommend that § 5 of the act of 1839 be so amended as to include them, and all other cities which may be hereafter incorporated in the State.

Table N is an abstract of the same returns, in respect to the sex, age, color, married or single state, nativity, education, orphanage or the contrary, previous conviction or the contrary, and temperance or intemperance of those convicted. It appears that in the five cities from which reports have been received, that the whole number convicted was 3,444.

Males,.....	2,750
Females,.....	691
Natives of the United States, .....,.....	1,067
do Ireland, .....	1,369
do England,.....	139
do Scotland, .....	47
do Germany, .....	187
do France, .....	17
do Canada,.....	70
Foreigners (country not specified),.....	548

This shows the whole number of foreigners convicted to be 2,377, while of natives it is 1,067.

The crimes were—

Assault and battery,.....	1,861
Petit larceny,.....	1,580
Trespass,.....	3

Table O exhibits the occupations of the persons convicted at the courts of special session in the cities of Albany, Brooklyn, Buffalo, New-York and Troy.

## TESTIMONY

*In the matter of the Examination under the foregoing resolution  
taken this 6th April 1852.*

*Mr. Williams* being duly sworn says, that he resides at Buffalo ; is Cashier of White's Bank, Buffalo ; said bank has received the canal tolls, a portion of them collected at Buffalo and Black Rock, several years, since 1844, some years more in amount, some years less, one year none at all. Made written application to the Canal Board. I usually came to Albany on the subject on the day when the banks were to be designated, have employed agents twice, Mr. Seth C. Hawley, a year ago or more, and E. Peshine Smith. two or three years ago ; got Mr. Smith to come two or three years ago after the day had passed. There was a certain amount that had not been disposed of. Employed them to bring their influence to bear upon the Canal Board, to get a fair portion of the tolls. During the year Mr. Fillmore was Comptroller, did not get any. Knew these gentlemen, would have more influence than myself with the Board, at the time Fillmore was Comptroller, in dividing the tolls at Buffalo. I was here and understood after the Board was adjourned, that they had given up a sixth part at that point, and went home satisfied, but in a day or two, got a letter from the Auditor, Ruggles, saying they had reduced us to a 12th; in a few days after got another letter from Ruggles, saying they had further revised the matter, and concluded not to give us anything, it was about the 1st of March; before this we had  $\frac{1}{4}$  under Flagg shortly after this I received another letter from the Auditor, giving us notice that they would shortly draw on us for the balance of the deposit with us, from 30 to 60 days ahead. I came down a few days before the allotment that year. I told Fillmore that if they were going to divide among the Banks there, according to their commercial standing, that we were entitled to our share, but if politically we would not ask for them. He disclaimed any politi-

cal consideration in the matter, but we did not get any; we employed no agent that year, in relation to Hawley, there was no consideration agreed on, but I asked him to assist us, this was last year, and at Congress Hall, I paid him \$100, some time after in consideration of his services. Had a note against him for \$500, and he came in with a \$300 note, which he wanted me to discount, and I took out the former note and made him a present of \$100. It was railroad tolls which had not been disposed of, the year we sent Mr. Smith; some one suggested we send him down, and I went over and gave him \$50 to come down. These are the only sums we ever paid in this way, but have been from time to time called on by both parties to contribute for election expenses and have paid them.

In employing Hawley it was on the ground of my impression that he had more influence with the Board than I had, agreed to pay him for the service, never conversed with any State officer with reference to the employment of Hawley. Has not since been threatened with a withdrawal of the tolls, the amount we have had since was one 12th.

*Cross Examined.* Mr. Taber of the committee objects to all the preceding evidence as utterly irrelevant to the matters submitted, and an unsuccessful attempt to assail the conduct of those not here to defend themselves.

In answer to Mr Taber, the sums paid to Messrs. Hawley and Smith were paid to them respectively as agents for the bank and employed by me; they were neither of them holding any State office at the time, was not recommended to employ them by any person in or about the Canal Board at that time, never communicated it to any one in Albany except as follows: nor do I know how the chairman of this committee ever heard of the above circumstances, was in Albany some time since and met E. R. Jewett of the Register newspaper who said you dont have to discount for Hawley now to get the tolls, said to Judge Wright, Comptroller, that heretofore we had to send an attorney to Albany to get the tolls, but did not mean to pay anything this year.

Mr. Taber objects to such of the above as is hearsay. I know there was a personal quarrel between Hawley and Jewett.

*Direct Resumed.* Did you employ Hawley on account of his personal, professional, or political influence? Objected to by Mr. Taber on the ground that the undisclosed motives of the witness in employing an agent ought not to be heard to prejudice any one and especially the absent. I employed him on account of his influence with the Canal Board both professional and political; has no other answer to make in relation to the subject matter of this enquiry. When I employed Mr. Hawley there were some tolls (a small amount) on deposit with us, after employing Mr. Hawley there was no change in the amount of deposit allotted to us: there has been a good deal of strife there at Buffalo for the toll.

*D. N. Barney* being duly sworn, resides at Buffalo, President of Bank of Lake Erie, has received the canal tolls on deposit in '49, '50, and '51. I came to Albany in each year, for the purpose of getting them; employed a man to assist me. The first year it was Seth. C. Hawley. Did not know the course to be pursued. Myself and Hawley was here—was not advised by any one to do it. Hawley was to use his influence with the Canal Board, I was not personally acquainted with them, and knew he was, not professionally as I know of; he knew my banking institution and knew what my claims were. Did not agree or promise to pay him any thing for such service. I don't know whether I have paid him any thing since or not for the service, I have discounted notes for him on the same terms as for others, discounted one note for him before that time which was paid, has discounted two for him since of \$250 each; they were 90 days notes, have fallen due and are not paid, they were notes payable to his own order and drawn by himself, one was discounted in '49 and the other in '50 the first was past due when I discounted the last, have never commenced suit on either, or made any attempt at collection; has never asked him

to pay them, it is not frequent that we discount a note without an endorser, there are men who we would discount a small note for without an endorser. It is not customary for us to discount for a person who has a note under protest ; it might be done in some cases, in extraordinary cases and cases of renewal to get better security ; did not get any more security in case of Mr. Hawley. I departed from our custom in this case as a special favor to Mr. Hawley, there was nothing said about the reward for the service in discounting the 1st note, had no good reason to suppose he would pay the second when the first was unpaid, don't consider Mr. H. very responsible, he has not been since I have known him, and that is a good while. Never had any communication with any State officer with regard to employing an agent, or informed any of them that I had employed him. I don't know whether he informed them, he represented us. When I said I did not know whether I had paid him or not I alluded to those notes. Bank commenced business in Oct '48, too late in the season for the tolls of that year, we got the tolls and Hawley represented to me that he helped get them, got one sixth of the Buffalo tolls that year. got one twelfth next year, as there were more banks to divide it among. Never had anything from the State officers, with regard to the tolls, first employed Hawley in '49 and went in '50.

*Cross-Examined*—by Mr. Taber : this matter was entirely between me and Mr. Hawley without any knowledge on the part of the State officers of it as I know of.

N. Parmele (now editor of the Commercial Advertiser) to assist me, I paid Mr. Parmele his personal expenses as I promised if he would give it his attention, as I was not able to be here myself; I was not advised from any quarter on the subject; has never paid anything to any one directly or indirectly in

order to get the tolls except as above, knows nothing further on the subject.

*Robert Codd*—Sworn, says I reside in Buffalo, my business is that of a banker, of the Exchange bank of Buffalo, my bank has been a bank of deposit of canal tolls since 1848 inclusive to 1849, but not since though I have had some on hand. I have visited Albany to obtain canal tolls, but cannot say I ever sent a special agent, I paid in 1849 to a person for the purpose of exercising his influence upon the Canal Board to procure tolls ; the person was Mr. Seth C. Hawley. I paid him \$250 for which I gave him a check and took his note at 90 days for the amount, the note has never been paid nor have I ever attempted to enforce the collection of it, very little passed on the subject of the note being paid ; but it was understood the note was not to be paid. I discounted a note in December of that year 1849, which he made application to me to do, it was for \$150. I discounted it, taking off the discount and handing him the avails, the note has fallen due and has not been paid, I never attempted to collect it, it is not an unusual practice for our banks to discount a note for a person whose note is under protest. I do it sometimes, I have no general rule on the subject some banks have. Mr. Hawley is not considered a man of pecuniary responsibility, the notes of which I speak were his

own notes payable to my order. I cannot swear that I ever paid Mr. Hawley any other money, or discounted any note for him to my recollection; the first note was discounted on account of services he was to render me. There was nothing said about the 2nd note, it was predicated on the influence I supposed he would have in the Board. I never had any conversation with any State officer, on the employment of Mr. Hawley, to my recollection. I sent a memorial to the Commissioners of the Canal Board, under cover to Alvah Hunt, when I found I was left off as I thought wrongfully, complaining that I thought improper influence had been brought against me, and got a reply from Mr. Hunt, which I have with me. Neither my memorial nor the reply related to any payment of money to get tolls.

Witness produced the memorial and reply, and Mr. Taber having objected to this being received in evidence, the committee adjourned, and Mr. Taber, and Mr. Platt, having been excused from further service on the committee by the Senate, and Mr. Williams having been added to said committee, at their next meeting, witness further testified as follows, it was 25th of March 1849, that I paid him the first \$250 at Congress Hall, it was after breakfast, in the morning the distribution was made; on that or the next day our bank was awarded a share of the tolls.

Witness submits the memorial to the Commissioners of the Canal Fund, dated Buffalo, April 1st, 1851; and a reply from Alvah Hunt, dated Albany April 27th, 1851; as required by the terms of the subpoena directing him to produce any papers in his possession relating to the subject, which are hereunto annexed:

[Confidential.]

ALBANY, 27th, April, 1851.

ROBERT CODD, Esq.,

MY DEAR SIR :—Your letter through me, to the Whig members of the Board, was duly received and handed to the Secretary of State; nothing was done for you in the way of tolls, but there is a good feeling towards you, that will result advantageously to you by and bye.

No new tolls, will ripen for some time, necessity has compelled us to draw all of the old tolls, when we again get in funds I will

endeavor to have a respectable deposit, placed in your bank, on the usual terms, as to security, and interest.

Hollis White, has pressed us hard on your account, which induced me to write you now, that you may be assured "there is a good time coming," and that you may rely on not being forgotten when the time arrives when a clever thing can be done.

Yours truly,

A. HUNT.

*To the Honorable the Commissioners of the Canal Board:*

Gentlemen : I feel it a duty to myself respectfully to address your board on what I conceive a wrong done me in the recent distribution of tolls in this city ; known as I had supposed myself to be a recipient of the tolls since the advent of the whig party to power ; known as an Irishman long settled here and not without influence with my fellow citizens ; doing as legitimate business as any banker in this city in proportion to my means and that portion of deposits allotted me, I am proscribed, singled out (alone) for omission in your distribution.

Permit me to remind your honorable board that I have been a true and steady whig ; long serving in the ranks without a stain I may trust on my escutcheon, pecuniary or otherwise since I worked my way to my present position. I feel that I have a claim on my whig brethren which should not, ought not to be disregarded, and that a portion of the favors at their bestowal should be apportioned to one who has fought their battles in bad as well as in good times, in preference if need be to political opponents, who when they had power here, in every instance took due care to provide for their own household only.

Heretofore I submitted to your board a recommendation from my friends, second to none in respectability and political importance in this city ; "that I was well entitled to a share of the favors you had to bestow" I did not ask for much, but I did and do ask that I should not be proscribed, my character and credit indirectly assailed by my whig brethren in power ; when thus treated as if unworthy to be a recipient of those favors, to which, my friends had vouched for my claims.

I have met all drafts on me, I owe not one dollar of deposits, I fear no scrutiny into my circumstances or trustworthiness, and supposing that a malign influence has been at work to my prejudice, I appeal to your sense of fair dealing, your justice and honor to restore me to my proper position; and make the only reparation you can for the wrong done me.

I am permitted by Governor Hunt, (who has some knowledge of me,) to refer to him; I refer you also to the Comptroller's reports since April, 1850. (Statement,) My books show that my bills receivable negotiated since then to this date amounts from April 1, 1850, to March 31, 1851, \$177,684, and my other loans, that period, to \$80,000—\$257,684; while I have had at any one time, of your deposits 17,450 only; and frequently only half that.

I further state that the number of firms and persons keeping accounts in my office is now 200 to 300 and who although mostly of the smaller class of dealers and mechanics, yet that I have such a number is full proof that I have devoted myself more especially to their business wants, and that I have rendered all needful accommodations to a class who feel its wants more than those more extensive in higher branches of commerce. With this statement I repeat my reliance on your justice and fair dealings.

I have the honor to be

Respectfully yours,

ROBERT OOD D.

*Exchange Bank of Buffalo, }*  
*April 1, 1851. }*

In the summer of 1850, after I had been left out, the first time Mr. Hawley called on me, and wanted a third note discounted, for what amount he did not say, and I answered that we had no money, as I and Mr. Tiffany, of the Pratt bank, who is now dead, had determined that we would not be bled in this manner any further, that we would let the canal tolls go first. To my answer that we had no money, he said you have got some canal tolls; I replied we had and what of it, I made some noise about this among my whig friends, exposed the transaction among the whig brethren, and shortly after, notice of drafts to be made on

me for \$10,000, were received which amounted to near the whole deposit in bank, the notices however were not acted upon. When I say I exposed the transaction, I mean that I spoke of the fact of the notice following so close on my refusal to discount Hawley's note, and of my refusal to give him further accommodation. After these notices of drafts were given, some one interposed, and prevented the Auditor, or Commissioners, from carrying out their intention.

When I wrote the letter above, the whole deposits had been withdrawn, and I had got none of the previous distribution. After that and late in the season of 1851, I received a deposit of \$15,000, with the intimation that it was as a compensation for my not having any tolls, for the two years previous, in which I had been omitted. Mr. White's name is mentioned in the correspondence; I had requested him when going to Albany, to represent the injustice that had been done me, and my party position in Buffalo. Subsequently I offered to compensate him, which he declined, answering that he never thought of such a thing.

*Francis. H. Tows*, being duly sworn, resides in Buffalo, and is a banker, connected with Oliver Lee and Co's. bank; our bank has been a bank of deposit of canal tolls, for several years past. I came to Albany in 1850 to get the tolls, got them; employed Seth C. Hawley to help, because I thought he had political influence with the Board, paid him \$1,000; agreed to pay him \$1000, provided he got one third of the tolls, at that point for us. Did not get one third, but think one quarter, and I found some fault, and Mr. Hawley said he would arrange it so that the deposits, should remain on hand undrawn, so as to be equal in value to the one third. To secure the carrying out of this arrangement, we discounted four notes of Mr. Hawley's for \$250 each; one at three, one at six, one at nine, and one at twelve months, I think for the last he was to give a responsible endorser, all were discounted and the money carried to his account, the reason why I required an endorser of the last, was that in case he failed to carry out the

arrangement in regard to the deposits, I might have a hold upon him, the notes were never paid; or as the notes matured they were charged to Hawley's account, and he was credited a sum equal to the notes, for professional services; think he was paid \$1,000 a year for two years. The transaction of the other year, was about the same in detail, as that I have named only, (it is my impression) it was paid in cash, this was in 1849. I have not my books with me, and only speak from memory.

Knows F. H. Ruggles, the late Auditor. While I was hesitating about paying Hawley so much, dissatisfied as I was at being required to pay so much for the deposits, Mr. Hawley brought me a letter from Ruggles, the Auditor of the Canal Department addressed to him.

Question: Have you that letter in your possession?

Answer: I have not got it with me, but have it at Buffalo among my papers; it was at my request left with me by Hawley.

Q. Look at the paper handed you and say whether it is a copy of that letter?

A. It is, and was copied by me from the original; copied it as a curiosity and sent it to some of our stockholders in Albany.

Q. Can you produce the original before the adjournment to-morrow?

A. No sir.

The following is the letter referred to:

(Copy.)

ALBANY, *August 6, 1850.*

Dear Hawley— want to know whether Tows has done what is right. The time is now come when I want to treat him well, if he deserves it, but unless he does I have use for all the money.

Yours truly,

F. H. RUGGLES.

In the spring of 1851, I think he was going into some business and wanted us to discount a note and carry it along for him for \$1,000 it was to be secured by a good endorser; he said if we would do it he would fight all our battles hereafter for toll at

Albany without any pay ; we did it and whether it has ever been paid I cant say, as I left the bank in September last ; it fell due before I left and was renewed once ; I was president of the bank when these things took place.
